

Queue::Effective

```
graph LR; A[Queue::Effective] --> B[Queue::IsEmpty]
```

A diagram showing a dependency between two queue-related methods. On the left, a gray rectangular box contains the text 'Queue::Effective'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. This white box contains the text 'Queue::IsEmpty'. Both boxes have a black border.

Queue::IsEmpty
